Year of completion: 2015

Location: Dallas (Texas), USA

Material: Statuario Caldia® honed

Thickness: 2 and 3 cm

Size: CTS

Quantity: Approx. 350 m²

The renovation of Oak Lawn Plaza, located in the highly busy entry to the Dallas North Tollway from the city's urban area, was the major change for the 8-story, 120,000 m² office building and has launched the property into the 21st century.

The project consisted of supplying honed Statuario Caldia® marble for the makeover of the lobby walls. Material of great charm and elegance that makes the space one of the most refined.
