Year of completion: 2016

Location: New York City (NY), USA

Material: Calacatta Caldia® polished and honed

Thickness: 2 cm

Size: CTS

Quantity: Approx. 5,000 m²

520 Park Avenue designed by Robert A.M. Stern Architects headed the list of seven projects in Michael Lewis "The Best Architecture of 2019" in the Wall Street Journal. The building provides 34 luxurious apartments in a 54-story tower and is entirely clad in limestone.

A collection of beautifully articulated intimate spaces are inspired by a new neoclassical style. The MGI Group brought light into the master and secondary bathrooms with 5,000 m² of Calacatta Caldia®.
