

Villa Bianca

RESIDENTIAL

Property: Private Owner

Architect: Massimiliano Ippolito

Year of completion: 2010

Location: Forte dei Marmi, ITALY

*Material: Statuario e Calacatta Caldia®
honed, Bianco Carrara, Pietra di Ponente
Thickness: 2 and 3 cm
Size: CTS
Quantity: Approx. 600 m²*

Beautiful villa completely redesigned on both exterior and the interior. Pietra di Ponente has been used (in mixed sizes and finishings) for the patio, the outside walkway and the front gate entrance, while the exterior walls, balconies and the arches were covered with honed Bianco Carrara marble at different thicknesses. The interior floors and the bathrooms, instead, were covered in honed Calacatta Caldia® marble cut to size pieces from 2 cm slabs.
