**Location:** Oklahoma City (OK), USA

*Material: Calacatta Caldia® honed*

*Thickness: 2 cm*

*Size: CTS and 30 m radius blocks*

*Quantity: Approx. 4,500 m²*

Independent oil and natural gas producer Devon Energy Corp. commissioned the construction of this skyscraper as part of a \$750 million project to replace its headquarters; the building which stands 50-stories and 270 meter tall is the tallest skyscraper in Oklahoma.

The project consisted of approximately 4,500 m² of honed Calacatta Caldia® marble (cut to size from 2 cm slabs) for the interior coverings and cut to size blocks for the 30 m radius glass rotunda.
