

# Villa São Paulo

## RESIDENTIAL

**Property:** Private owner

**Architect:** Oscar Niemayer

**Year of completion:** 2011

**Location:** São Paulo, BRAZIL

*Material: Statuario Caldia® honed and polished*

*Thickness: 1 and 3 cm*

*Size: CTS and mosaic*

*Quantity: Approx. 2,200 m²*

Owned by a famous entrepreneur of Brazilian TV network, this beautiful villa, with two swimming pools (one covered), 18 bedrooms, a movie theater and an heliport, is one of the biggest mansions in Brazil.

The project consisted of supplying approximately 1,500 m² of 2 cm Statuario Caldia® marble, honed and polished, cut to size for flooring and staircases and also 700 m² of the same material to be used as mosaic. The marble staircase offers a great scenic effect and attention to detail defining the Classic as the most appropriate style to express all its aesthetic values. The use of book matched panels gives an extra touch, completing the furnishings in a refined environment.
