Year of completion: 1990

Location: Massa, ITALIA

Material: Statuario, Caldia®
Bianco Carrara, Verde Issorie®
honed and polished
Thickness: 2 and 3 cm
Size: CTS and columns
Quantity: Approx. 100 m²

From the outside it looks like a beautiful home by the sea, inside it surprises with the refined elegance of the interiors. An architecture that guards the secrets of the nearby Apuan landscapes. Essentially, the project expresses an original attitude that blends tradition, atmosphere and essentiality. The main protagonists are Verde Issorie® marble, with its excellent brilliance, in a winning combination with Caldia® marble. Natural stone evolves one of the most intimate rooms in the house into a space full of decorations.
