*Material: Verde Issorie®, Calacatta*

*Caldia® honed and polished*

*Thickness: 2, 3, 5 cm*

*Size: CTS*

*Quantity: Approx. 45 m<sup>2</sup>*

Always in search of new inspirations and new goals, natural stone for cladding is a material with multiple potentials, capable of playing with expressive panache through decorative inserts that catch the latest trends in decor. The effect of the beauty of the egg-shaped Calacatta Caldia® on the wall and the continuity with the graphic pattern of the Verde Issorie® marble transform the surfaces of this bathroom into a welcoming and original place. A further idea: the countertop washbasin from the Nuvole collection by Dedalo Stone.
