*Size: CTS*

*Quantity: Approx. 50 m<sup>2</sup>*

Hybrid, shared and green. These are the attributes that the workspaces of the future should have. The secret of a contemporary environment is to use natural stone in custom-made projects for its ability to transform environments into eco-sustainable, elegant, cherished representative places. With a timeless allure that instils the stone with a cooler soul that binds it to commendation and institution. Different from each other in style, MGI solutions all have one point in common, the mix & match of luminous shades where Verde Issorie® marble goes well with the delicate beauty of Caldia®. An impressive and spectacular effect is guaranteed.
