Year of completion: 2021

Location: Leeds, UK

Materials: Bianco Carrara, Rosa Tea, Bardiglio Nuvolato

Thickness: 2 cm

Size: CTS

Quantity: Approx. 100 m²

The distinguished English jeweller Boodles has chosen an elegant palette for the decorative rosette that makes up the floor of the exclusive Leeds boutique. It was made by cutting marble details with a waterjet machine that allows designs with curved inserts of different colours to be created. The 'tea rose' marble is a natural stone of Iranian origin which features a fairly uniform salmon pink background, carefully chosen because it is one of the elements that defines the visual identity of the brand.
