**Location:** London, UK

*Material: Travertino Navona honed*

*Thickness: 2 cm*

*Size: CTS*

*Quantity: Approx. 1.500 m<sup>2</sup>*

The Broadway, in the heart of Westminster, is set to become London's wellness capital. Within one of the largest residential sites in the centre, The Broadway houses state-of-the-art facilities such as the 25-metre heated indoor pool and the Vitality pool where residents can relax on plush loungers and experience a true retreat from the chaos of the city. The project enhances the unusual softness of the Navona Travertine worked with two different finishes: filled with a transparent resin that keeps the holes in the material open and visible for the coverings, emphasizing its naturalness, or with cement that closes the holes for 'non-slip' floors. The constant grain creates a uniform and continuous effect, completing the warm and enveloping atmosphere in which form and function are combined with exclusivity.
